1st PPRS AUTUMN SCHOOL ON DEEP LEARNING

“UAVs and Real-Time Computer Vision”

The Autumn School on Deep Learning is a premier gathering for researchers, scientists and practitioners in the artificial intelligence community organized by the Pakistani Pattern Recognition Society (PPRS) in association with National University of Sciences and Technology, Institute of Space Technology and Bahria University. The 1st Autumn School comprises informative lectures and hands-on training on the application of deep learning in UAVs and real-time computer vision by foreign professors and specialists and will be held in the Resource Center Murree which is housed in the scenic landscapes of one of the most famous tourist destinations of Pakistan, the beautiful Murree hills.
